

The Dental Loan

Worried about the cost of your dental treatment? Would you like to have your teeth whitened? If you apply for our interest free Dental Loan today you could soon receive the treatment of your choice.

And it really is interest free – that's zero percent interest on the total cost of your treatment (spread equally over the agreed term).

- Spread the cost of your treatment – free of charge – over the agreed term
- Book your treatment immediately
- Pay nothing, not even a deposit – but still start your treatment right away
- Have a revolving credit limit in place for further use in the future
- Simple to understand
- Easy to apply

About Clode Retail Finance

Clode Retail Finance introduced The Dental Loan into the marketplace 15 years ago, giving dentists the opportunity to offer patients affordable treatments.

The Dental Loan was an instant success and proved to be a simple way for patients to spread the cost of their dental care over extended periods with no interest to pay at all.

How the account works

- The cost of initial treatment is divided over the agreed term, to give you your monthly repayments.
- The first installment will be due a month after your treatment starts – we will tell you the exact date when we send you a welcome letter advising you of your credit limit, should you ever need to use the account again in the future.
- You can spend up to your credit limit, so once you have started to reduce your account, your credit limit is available to be re-used, on a revolving basis.
- So if you do need further treatment, this will simply be added to the outstanding balance on your account, and the repayments will be re-calculated on the new, total value. The revised equal payments will continue, until your balance reaches zero, or you have further treatment. So it's really easy to plan your treatments if you are on a budget.
- The minimum payment each month is £40 and no interest will be charged, so long as you continue to make your payments on time.

- We will send you a monthly statement, keeping you up-to-date on your treatment bills and payments made.

Open an account today

Simply ask at the Dental Reception about opening a loan account today and they will take down your details. Clode Retail Finance can approve your application over the phone, giving you a credit limit immediately.

All CRF need from you are two forms of identification for security reasons, such as a credit card, driving licence or a recent utility bill. After you receive your welcome letter from CRF you are free to use your account whenever you want to receive treatment.
